

INTELLIGENT AUTOMATION FOR EDUCATION

Smarter, faster, more engaging education.

An autonomous-ready solution built on ELIE — automating student onboarding, enrolment, course matching and coursework intake, with compliance and record-keeping at every stage.

COMPLIANCE

STUDENT-FIRST

THE EDUCATION LANDSCAPE TODAY

Manual, fragmented & under pressure

01 Onboarding bottlenecks

Enrolling thousands of students in weeks creates delays and errors.

02 Manual coursework

Staff overwhelmed by submissions and validation tasks.

03 Compliance risk

Right-to-study, accreditation and data protection add complexity.

04 Resource drain

Skilled academic staff tied up in admin instead of teaching.

Today, Education teams juggle disconnected systems and manual work — slowing delivery, inflating cost and quietly building risk into every step.
