COMPLIANCE

THE NEED

Supplier risk is complex & costly by hand

Supplier risk management involves high volumes of onboarding, due diligence and compliance checks. Manual reviews are costly and time-consuming, and repetitive questionnaires slow procurement teams — while tighter regulations and rising supply-chain risks increase the pressure.

01 High volumes

Onboarding, due diligence and compliance checks at scale.

02 Manual & slow

Repetitive questionnaires and documents slow procurement teams.

03 Tighter regulation

Pressure to deliver faster onboarding with greater transparency.

04 Inefficient tools

Traditional compliance processes and spreadsheets are costly and error-prone.
