From Paperwork to Productivity

How intELIEdocs transforms document handling

AI-Powered Document
Automation

INTRODUCTION

Paperwork drives decisions.

Every organisation relies on documents — invoices, contracts, medical forms, government applications. The problem is that handling them manually is slow, error-prone and expensive, and compliance demands like **GDPR** and **ISO 27001** leave no room for mistakes.

That's where **intELIEdocs** comes in: an AI-powered document processing engine that extracts, validates and routes information with unmatched speed and accuracy — turning documents into decisions without the drag of manual work.

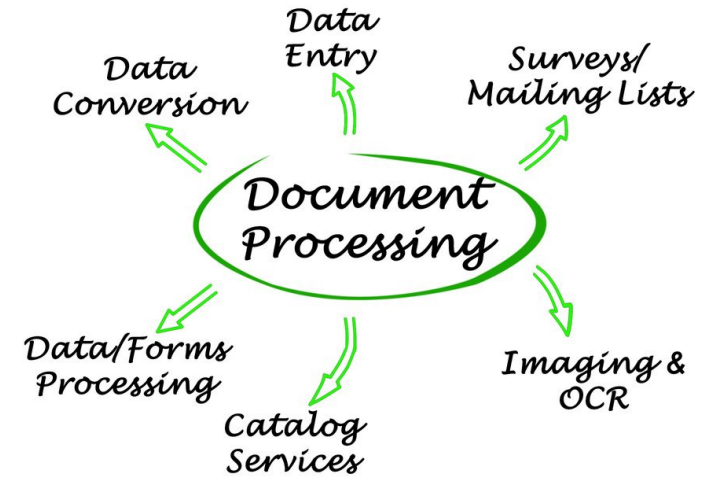

01

THE PLATFORM

What is **intELIEdocs**?

More than OCR. intELIEdocs is intelligent document processing that captures, validates, connects and keeps humans in control — automating the admin while protecting compliance.

MORE THAN OCR

Intelligent document processing.

- › **Captures** data from structured, semi-structured and unstructured documents.
- › **Validates** information instantly against business rules and compliance standards.
- › **Connects** seamlessly to your existing systems — CRMs, ERPs and databases.
- › **Keeps humans in control** with optional review steps where needed.

HOW IT WORKS

An always-on digital team member.

1

Ingest

Capture documents from email, uploads or system integrations.

2

Extract

AI reads and understands data at both field and context level.

3

Validate

Built-in compliance checks ensure accuracy and regulatory alignment.

4

Deliver

Data and decisions are sent to the right systems, people or workflows.

KEY FEATURES

Built for accuracy and compliance.

Universal handling

Works across industries and document formats.

AI data extraction

Proprietary models capture fields and context with human-level accuracy.

Built-in compliance

Automatically applies GDPR, ISO 27001 and internal rules.

Smart validation

Flags anomalies, missing fields or inconsistencies early.

Seamless integration

Connects to CRMs, ERPs, databases and workflow systems.

Human-in-the-loop

Add human checks where assurance is critical.

BENEFITS & OUTCOMES

Real results, not just digital copies.

- ✓ **Time savings** — free teams from repetitive data entry.
- ✓ **Faster onboarding** — speed up client and customer journeys.
- ✓ **Better compliance** — every document is audit-ready by default.
- ✓ **Increased capacity** — process more cases without adding headcount.
- ✓ **Lower costs** — replace manual admin and outdated OCR tools.

USE CASES

Across every document-heavy sector.

Finance & AP

Automate invoice capture, validation and approvals; cut processing time and errors.

Legal & contracts

Extract key terms, clauses and renewal dates to stay compliant.

Healthcare

Process patient records, referrals and forms securely with full privacy controls.

Insurance

Accelerate claims intake, policy checks and evidence validation.

Government

Digitise citizen forms, benefit applications and licensing paperwork to improve public service delivery.

INTELIEDOCS VS OCR

OCR scans text. We understand it.

- 1 Traditional OCR scans text — **intELIEdocs understands documents.**
- 2 AI comprehension delivers **>99% accuracy** on critical fields.
- 3 Compliance is **built-in, not bolted on.**
- 4 Scales to **millions of documents** without additional staff.
- 5 Delivers **real outcomes** — not just digital copies.

PRICING OVERVIEW

Pay only for what you process.

intELIEdocs is priced around **document models** — one model per document type. You add models as you scale, so costs track exactly to your needs.

One model = one type

e.g. invoices, purchase orders and contracts = three models.

Scale on demand

Add models as volumes grow — only pay for what you use.

A simple calculator makes it easy to estimate costs and ROI.

FAQ

Frequently asked questions.

Q What documents can it process?

A Structured, semi-structured and unstructured documents across multiple industries.

Q How accurate is the data capture?

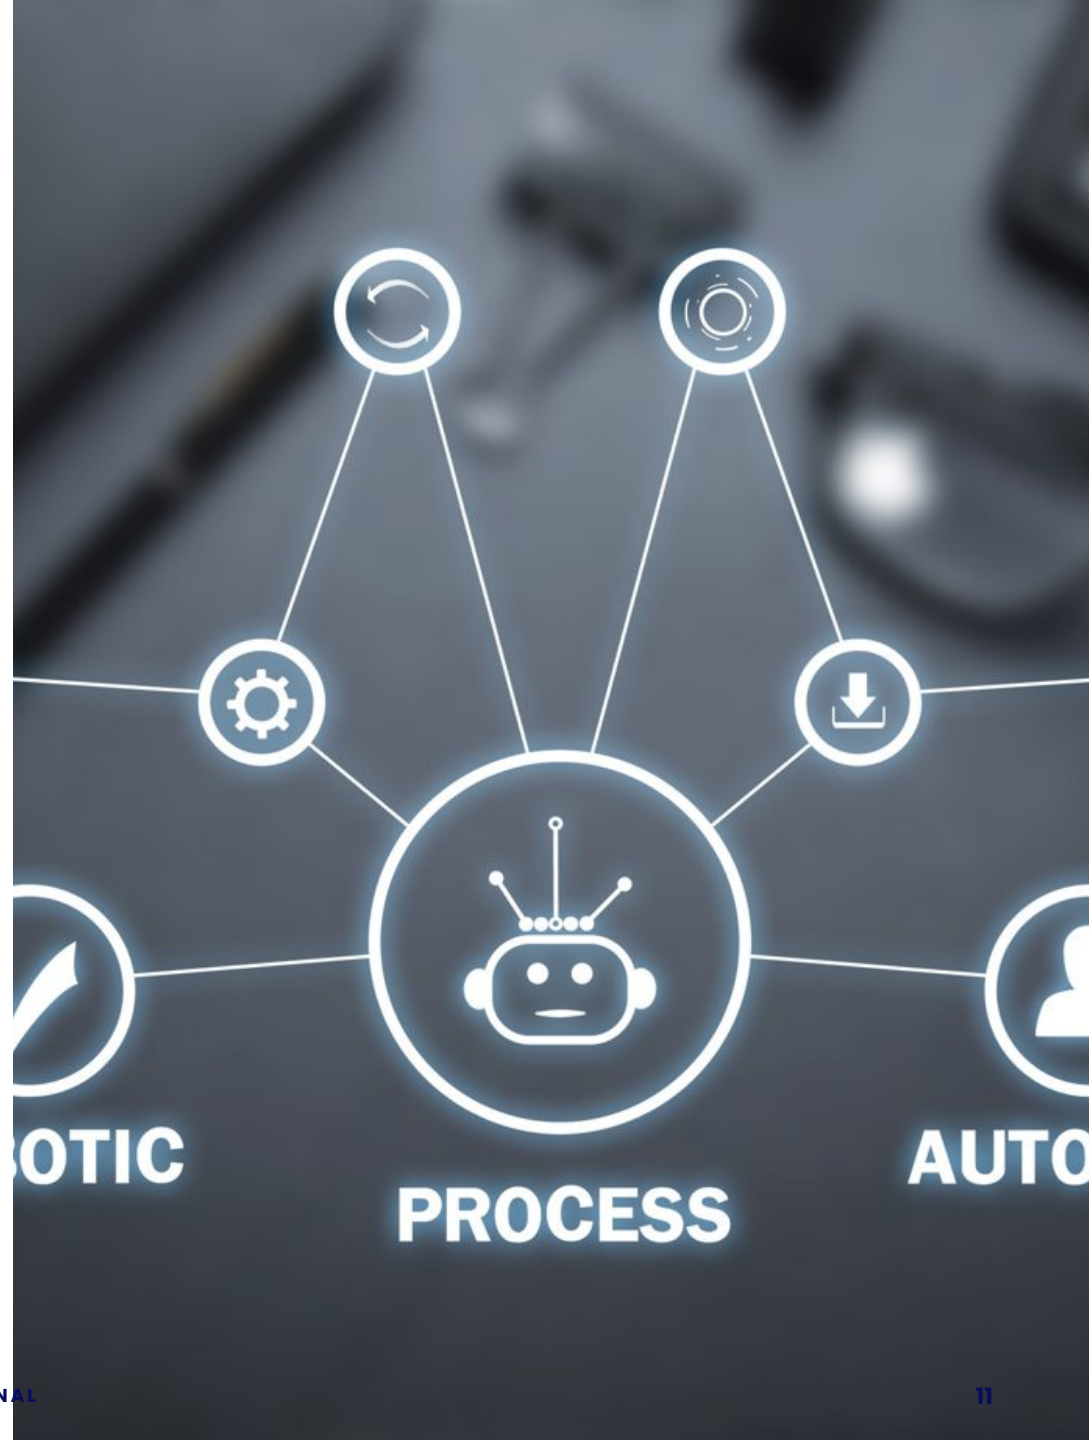

A Proprietary models deliver over 99% accuracy on critical fields, rivalling human review.

Q Can it integrate with my systems?

A Yes — it connects to CRMs, ERPs and databases with minimal disruption.

Q Is my data secure?

A Yes — aligned to ISO 27001, end-to-end encrypted, and GDPR-compliant.

FROM PAPERWORK TO PRODUCTIVITY

Turn every file into a fast, accurate decision.

Documents don't have to slow your business down. With intELIEdocs, every file is delivered straight into your workflows — clean, validated and ready to act on.
